Hi Bill. I know you've been very busy on Tier 3. It is a tough struggle, but quite important for long term public health and industry technology leadership. We are expecting much resistance at the OMB and are gearing up to help defend it.

I can't resist keeping you apprised of what's happening in Europe on GDI PN. See item 14 in Mike Walsh's last monthly summary. This is somewhat of a "light" version of what's happening, but GDI PN is hitting the mainstream EU press and getting attention.
